Editor's Note

By Jim Stoutjesdyk

Happy Holidays! As promised, the December issue of MoneyTalk\$ is filled with terrific bargains, new purchases, and great holiday gift suggestions. Thank you to everyone who purchased from our last catalog. We received a record number of orders and will continue to improve the quality and content of each issue based on your suggestions.

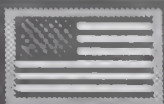

Many people on the East coast (especially New York) have mentioned to me that it sometimes takes up to two weeks for them to receive their issue of MoneyTalk\$. Often, they call the day they receive their catalog and the items they wish to purchase are already sold out. I am trying to find a way for the catalog to be distributed at the same time to all parts of the country. Due to the large number of copies we send out (this issue over 12,000) we save thousands of dollars by sending them bulk mail. This means they are low priority to the post office and often sit at your local station several days before being delivered. For this issue I have instructed the shipping department to send all of the issues with East coast zip codes out 4-5 days early to give everyone an equal chance.

Superior is pleased to announce that it will once again be auctioning the legendary King of Siam proof set during our January 31st to February 2, 1993 coin auction. The last time this set was sold it realized a record \$3,190,000. We expect a large turn-out and strong prices at this historic auction. Catalogs are available for \$20, and if you are a successful bidder on any lot in the sale, your \$20 will be refunded and the catalog is yours absolutely free. Please feel free to call for further information.

In this issue you will find everything from Spanish ship wreck treasure coins to turn-of-the-century sheet music; ancient Egyptian artifacts to modern commemorative Bicentennial medals. As always, we have a new selection of U.S. coins and currency, ancient coins, and many pages of world stamps. Look closely through the catalog as I have specially priced many items at our lowest price ever for this special holiday issue.

I am already making plans for the next issue of MoneyTalk\$ which will probably appear sometime around March. That issue will contain a large selection of foreign coins in response to the many requests I have received from collectors.

From me and the entire staff of Superior, I wish you happy holidays and a prosperous 1993!

Affordable Buffalo Nickel Sets

We recently purchased a large herd of Buffalo Nickels including more than 50 complete sets!

Instead of breaking them up we decided to blow them out at a very special price. These are complete sets from 1913-1938, missing only the 1918/17-D and 1937-D 3 Legged.

A complete set in Good would retail for over \$300. At only \$99, these sets do contain some about good, acid date, and problem coins. The key dates may be quite rough, but the rest of the set averages Good to Fine.

These make great starter sets and come in an attractive Whitman bookshelf album.

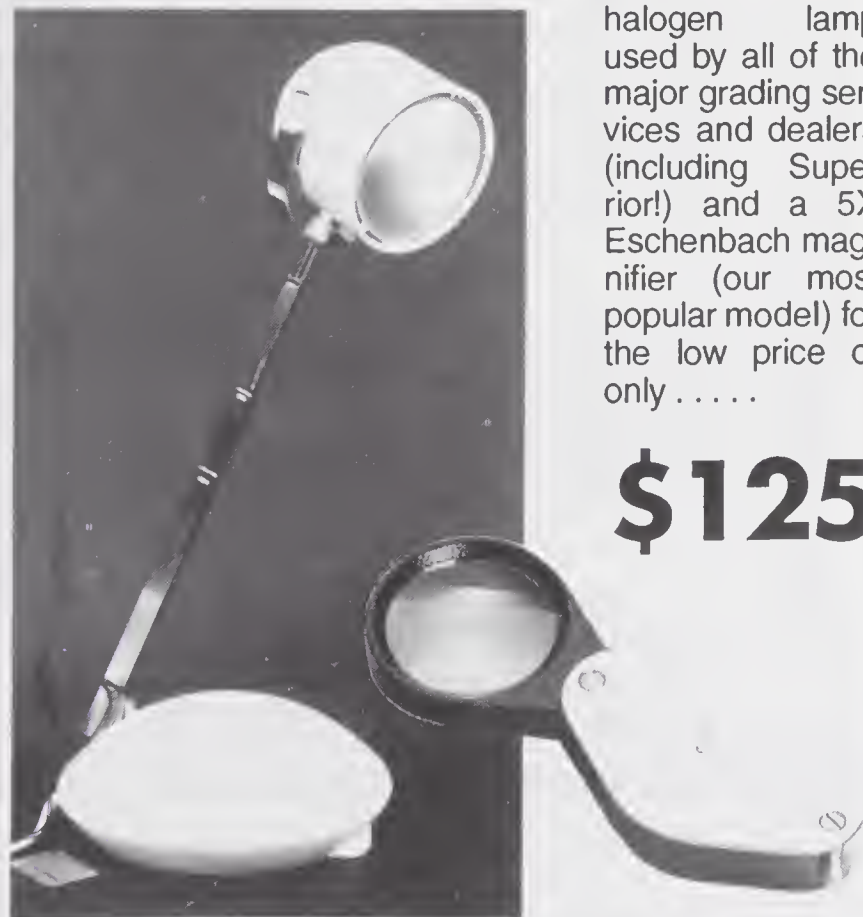

Only \$99 a set!

A Great Gift Idea

We've taken our two most popular accessories and combined them to give you one special price.

You'll receive a halogen lamp used by all of the major grading services and dealers (including Superior!) and a 5X Eschenbach magnifier (our most popular model) for the low price of only

SPANISH TREASURE COINS

from the wreck of the Reijgersdaal in 1747

We are very pleased to offer these historic Spanish "Pieces of Eight" or 8 reales from the wreck of the Dutch East India ship *Reijgersdaal*.

Floundering in a storm off the South African coast in 1747, the 850-ton *Reijgersdal* hit the rocks and went down on October 25th of that year. She carried a cargo of approximately 29,000 coins, mostly Mexico City mint 8 reales, featuring the familiar Pillars of Hercules design.

The wreck of the *Reijgersdaal* remained virtually forgotten until a pair of courageous treasure salvors, Jimmy Rawe and Arthur Ridge, relocated it in 1979. The salvors recovered several thousand coins and split their find fifty-fifty.

We are pleased to offer examples of the highest quality pieces allotted to Jimmy Rawe.

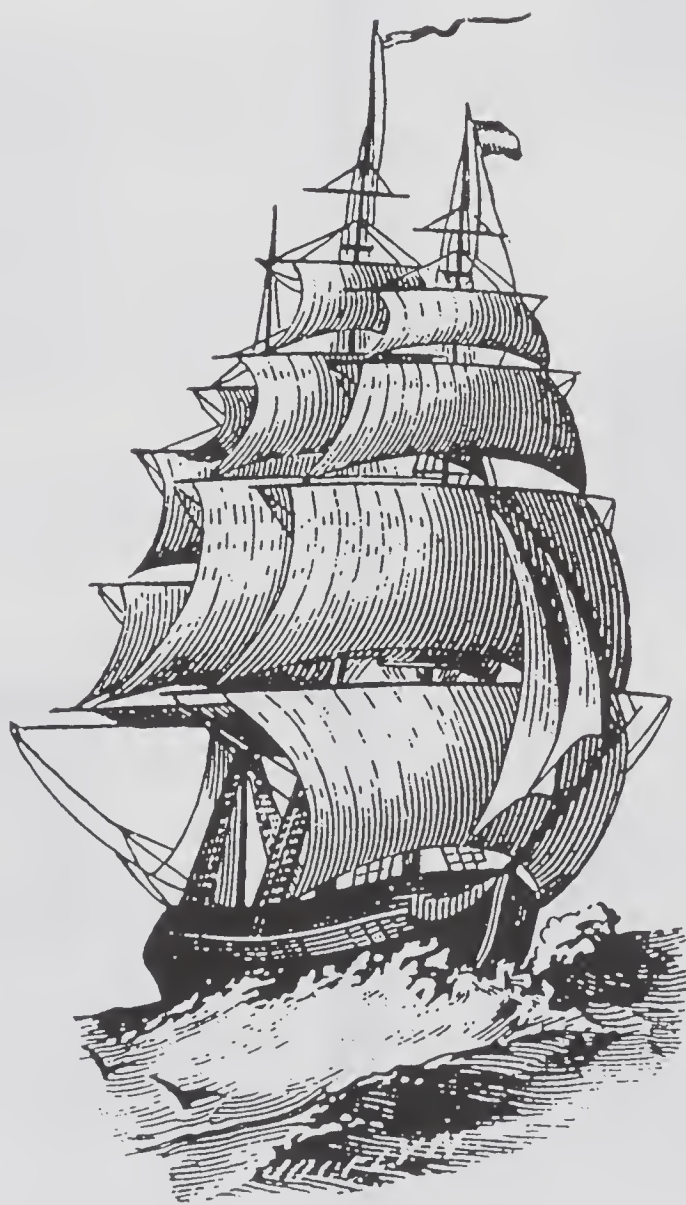

These pieces are "A" quality examples (the highest grade

available) and are virtually uncirculated coins which have been chemically treated and retuned to restore their origi-

nal appearance after nearly 250 years at sea.

Each of these coins is a beautiful, fully struck example of America's first silver dollar and comes with a certificate of authenticity.

These coins normally retail for \$200-\$250 each. Through a special arrangement with the discoverer of these historic items, we are able to offer them at the following low price while they last.

Superior Offers Collector Program

By David Vagi

Let's start this column with a big "thank you." It was refreshing to see multiple orders on the collector coins (all of which are one of a kind). This sent a clear message, and I will strive to offer even more quality and affordable collector coins.

As you can see by the banner headline, Superior has something new for you this month. We are introducing a collector program to help collectors who are new to the field.

Our goal is to make you an offer you can't refuse: When you join the program we take the worry out of getting started. Additionally, you are guaranteed never to pay full retail.

It's that simple.

We realize how intimidating this field can be to the novice who does not want to make those "costly mistakes" the rest of us made. But more importantly, we know just how rewarding it is. So this is how we'll help you get started.

Take a moment to look through the categories described on the next page. These are the ten most popular collecting areas. No matter which category interests you the most, rest assured it will be an exciting journey!

The first thing you receive after signing up is a personal phone call so I can learn more about your collecting goals. Then we'll send you a complimentary book relating to your topic.

After that we'll send you a beautiful ancient coin housed in a custom holder each month. These coins are sent on ap-

proval. If you like the coin you may add it to your collection, if you don't, you may simply return it.

Remember, you are never under obligation to purchase a coin! We aim to

please.

And the service doesn't end there! I will personally hand-select each coin for you. This way I can be sure you're getting the right coin at the right price every time.

Let Superior guide you through this, the most fascinating journey in numismatics. Witness the wonders of the ancient world come alive before your own eyes as you gaze upon these superb works of art. Relive great moments in history - all in the palm of your hand.

On a final note I would like to remind you that Superior is holding three wonderful auctions in December in conjunction with the New York International Numismatic Convention - the prime event of the year for collectors of ancient and foreign coins.

Our annual auction of ancient and foreign coins will be held on December 11th and 12th. A balanced offering of Greek and Roman coins—rarities and moderately priced collector coins—will ensure this sale is a resounding success. Don't miss out on the action!

We expect a repeat performance when the second part of the Abraham Bromberg collection of ancient Judaeon coins crosses the block. Last year's results were spectacular with two coins selling in the quarter million dollar range.

We also predict strong bidding when the superb quality collection of Latin American coins formed by Paul Kauron crosses the block. Insiders in the business agree that quality like this does not become available very often!

Here's How It Works...

- ✓ Browse through the information on the next page and decide which topic interests you the most.
- ✓ Decide which price range is best for you.
- ✓ Fill in the form with your name, address and phone numbers. Be sure to indicate the category and price range.
- ✓ When Superior receives your application we will call you to say "hello" and find out more about your collecting goals.
- ✓ We'll also send you a book on your collecting area—free—just to get you started!
- ✓ Each month you will receive a coin from your category on approval.
- ✓ Decide within seven (7) days if you like it.
- ✓ If you like the coin just remit the amount due.
- ✓ If you don't like the coin, simply return it without obligation. You may request a replacement coin.
- ✓ You are never obligated to purchase a coin. You may stop your enrollment or change categories at any time.

6. The Age of Alexander

Perhaps the most celebrated conqueror of all time is Alexander the Great. He and his successors made profound changes in the Greek world: from expanding the Greek influence as far as India to changing the known world from one of cities to one of empires. 4th Century B.C. to 1st Century B.C.

7. Famous Greek Cities

Athens, Sparta, Troy, Syracuse and Olympia—they all conjure visions of grandeur in the ancient world, and each has a unique story to tell. Your collection will contain coins from the most famous cities, illustrating the breadth of ancient Greek culture. 6th Century B.C. to 3rd Century A.D.

8. Jewish Coinage

The history of Judaea is rich in coinage from the Greek and Roman empires who governed the land, to their own coins struck during two bloody revolts against the Romans. Discover the lore and history of the Holy Land with coins that passed through the hands of its people. 4th Century B.C. to 3rd Century A.D.

9. Coins and Christianity

10. Coin Denominations

From the mighty dekadrachm to the tiny trihemitemarteron, the hefty sestertius to the humble quadrans, coins of all sizes—thick and thin—were used in ancient times. Whether you like gold, silver or bronze, or a little of everything, you can begin your collection today! 7th Century B.C. to 5th Century A.D.

GALLIC GOLD STATERS

Used During The Invasion Of Gaul By Julius Caesar

These gold staters, each about 16 karats pure, circulated in Gaul (modern-day France) at the time Julius Caesar and his Legions were conquering Gaul in the name of Rome.

For eight years, from 58 to 50 B.C., Caesar's army won great victories and suffered humbling setbacks in Gaul. Eventually the might of Rome overwhelmed Gaul, which remained a Roman territory for the next few centuries.

As the Gallic chieftains gathered soldiers, supplies and weapons to defend their homeland against the armies of Caesar, the gold staters offered here were perhaps the most widely used coins of high value.

Caesar's victory in Gaul won him great praise and set the stage for his becoming the most powerful man in Rome. However, several of his peers, including M. Junius Brutus, took

exception to his lust for power and assassinated him in the Ides (15th) of March in 44 B.C.

The reverse of these coins, attributed to "The Morini" tribe, show a disjointed horse rendered in Gallic style. Various symbols and ornaments appear in the fields. The obverse does not have a design.

We found only ten coins in a group recently offered which met our standards for centering and high grade (VF-EF). The horse was significantly off center on most examples.

Act now to reserve one of the ten hand-selected coins we acquired. Each coin is guaranteed authentic, about 2,000 years old, and is guaranteed to please. Sold on a first-come, first-serve basis.

Holiday Gifts From The Holy Land

Judaean Oil Lamp — \$39.95

The oil lamp was probably one of the most important parts of ancient life, as it allowed activities to take place after the sun had set. The lamp was filled with oil poured into the center hole on top, with a wick inserted into the side.

This same type of lamp was used by Maccabees in conjunction with the first celebration of Chanukah.

This oil lamp is simply superb! Completely intact, and virtually free of chips and breaks. It and many others were found in the Judaean Hills outside of Jerusalem (in the same area that the Dead Sea Scrolls were found). In fact, if you pour in some oil, place in a wick, they will throw off light like they did thousands of years ago!

The "Widow's Mite" — \$12.95

The Judeans struck their first coins starting in about 134 B.C. These coins were small bronzes called *prutahs*, *leptons*, or *mites*.

These small bronze coins circulated in the Holy Land for many years. The *mites* were the currency of the poor, silver and gold being used by the rich. The *mites* were the smallest denomination of coinage circulating in Jerusalem at the time of Christ. This led to the scripture story of "The Widow's Mites:"

"And Jesus sat over against the treasury, and behold how many people cast money into the treasury; and many that were rich cast in much. And there came a certain poor widow, and she threw in two mites . . . And he called unto him and his disciples, and saith unto them . . . that this poor widow hath cast more in, than all they which have cast into the treasury."
— Mark 12:41-43

The "Widow's Mite" coins are in average Fair condition. A fitting representative of their widespread use.

A select example of each. The pair **\$47⁵⁰**

The Coins of PONTIUS PILATE

Pontius Pilate, procurator of Judaea, placed there by the Roman emperor Tiberius, is known to all for his delivery of Jesus to the crucifixion, April 17, A.D. 30:

♦ Matthew 27:14 — *When Pilate saw that he could not prevail, but rather a tumult was made, he took water and washed his hands before the multitudes saying, I am innocent of the blood of this person: see ye to it.*

A further reference to Pontius Pilate is also found:

♦ John 18:28, 19:42 — *Pilate then went out into them, and said, What accusation bring ye against this man?.....etc.*

Coined in A.D. 30-31, each Pontius Pilate prutah we offer exhibits an augur's wand (appears as an upside-down umbrella handle), the famous telltale device which is totally unique to this coinage. This curious looking device relates to Pilate's position as an ardent believer in augury.

This type of coin which was in daily use must have truly angered the Children of Israel. Ever since the time of Moses, Jews were taught the evils of divining or augury in any form.

Judaea Bronze Prutot of Pontius Pilate, procurator under Tiberius, coined A.D. 30-31

Obverse:

ANCIENT BRACELETS

Ancient Egyptian Ushabtis

We are very pleased to offer a group of beautiful faience ushabtis found at Sakara and dating from the Saite Period (XXVIth Dynasty) circa 664-525 B.C. The ancient Egyptians believed that in the afterlife they would be summoned to work in the fields. Consequently, they provided themselves with ushabti figures to serve as substitutes to perform these tasks. Every important Egyptian was entombed with three hundred and sixty five ushabtis — one for each day of the year — plus an overseer ushabti for every ten regular ushabtis.

Our ushabtis hold a pick in one hand and a hoe in the other, and bear the inscription "May he be illuminated, The Osiris REDJY-M-HOTEP born of the woman MERT." Each ushabti is custom mounted on a clear lucite stand.

Due to a most fortunate purchase, we can offer these outstanding ushabtis with this most unusual and personal inscription for only \$195.00 each. Each is accompanied by a Certificate of Authenticity with historical background. This is a \$350 value!

Only \$195 each!

BUY SOME HISTORY FOR A SONG

We are pleased to offer a new and exciting collectible—original sheet music from 1898 through WWII, the Roaring 20's, the Depression and into the 40's. These beautiful melodies were penned by the greatest American composers (Gershwin, Berlin, Kern, etc.), sung by the biggest stars (Jolson, Cantor, Fanny Brice, Sophie Tucker, etc.) and most are still being hummed today. The art work on many of these sheets is worthy of framing and the motifs reflect the time and mood of the country. Some are patriotic, many are art deco, some are topical or whimsical, others are romantic and elegant. Sizes range from 9" by 10" to 9" by 13." These are one of a kind. We'll be happy to choose a nice assortment from each group so order early for first choices.
